385 Lava (SRI 23)

288 Bamboo (SRI 41)

288 Straw (SRI 48)

755 Spice (SRI 41)

755 Apricot

385 Buffalo (SRI 20)

385 Bark (SRI 16)

Loadings
in four-color
groupings are
represented
as follows:

1% loading	2% loading
3% loading	4% loading

These color chips represent shades of integral colors based on medium tone gray Type I-II Portland cement with 4" slump. Use this chart as a guideline only. The colors may not exactly represent the final color. Shade variations of cement and aggregate, plus variations in the mix design, volume of water, addition of admixtures and other additives, finishing and sealer will have an effect on the final color. The colors shown on this color chart represent unsealed colored concrete. Use of a concrete sealer may darken the color. Therefore, we recommend that a test slab be poured and approved prior to the start of the job.

242 Sandstone (SRI 36)	242 Sahara (SRI 46)	115 Limestone	115 Shell (SRI 56)	920 Slate (SRI 22)	920 Smoke
